LOCAL.

—Council meeting tonight.
—Train left Red Deer on time.
—Fort Saskatchewan's population is 450.

—L. O. L. No. 1764 meets tonight in Hourston's Hall.

—A cigar factory has been started in Wetaskiwin to be known as the North Star Cigar Factory.

—R. J. Manson has been appointed Inspector of Works for the jail about to be erected in Edmonton.

—R. J. Manson has secured the contract for the new Alberta hotel. This work will be rushed through rapidly.

—A baseball team of traders from the north play McDougall and Secord's nine this evening on the old race track.

—News was brought to Edmonton from Fort Saskatchewan that W. J. Hunter was seriously ill with pneumonia. He is now, however, out of danger.

—The instructions from the department given contractor Charles May, place one part of the jail in a slough. An effort is being made to have the site moved one hundred and fifty feet.

—The Souris lacrosse team, champions of Manitoba, will play the Medicine Hat lacrosse team, who claim to be the Champions of the Northwest Territories, in Medicine Hat on July 29th and 30th.

—H. K. Grive, of Willow City, North Dakota, in subscribing for the Bulletin says, "North Dakota is at the present time suffering for the want of rain, crops are very light and in many localities wheat and oats are ruined."

—The special immigration number of the Neepawa, Manitoba, Press, is a highly creditable one. A number of views of some of the main buildings, as well as a very extensive write-up of the district are the leading features of the issue.

—Medicine Hat News.—C. E. D. Wood, barrister, leaves Macleod for Regina about the middle of August. As the capital he enters into partnership with premier Haultain. For 21 years Mr. Wood has been owner of the Macleod Gazette, which business he recently disposed of.

—Since McDougall and Secord's defeated the printers on Friday evening every boarding house and store in town are sending in challenges asking the printers for a game. The purchase of the boarding house was the first to challenge, and a match will take place tomorrow evening on the old race track. The game promises to be a hot one as three of the city nine belong to the boarding house team.

—A very pleasing reception was tendered Mr. John West of the Yukon, by the Edmonton Club on Saturday evening. Among those present were His Worship Mayor Short, J. B. Mercer and E. J. Tims, president and secretary respectively of the Edmonton Board of Trade; D. J. Kennard, town clerk; D. Wilson, Hudson Bay factor for the Vermilion and Peace river district; E. M. Turnbull, manager Canadian Bank of Commerce; Messrs. Copp, Taylor, Campbell, and the guest of the evening Mr. John West.

—A copy of the midsummer number of St. Margaret's College Chronicle, Toronto has been received at this office. A group photograph of the editors appears on the first page. The only western girl represented being Miss Dora Oliver, Edmonton. Two contributors from Northwest subjects were Miss N. Belcher, who wrote on "Life in the Northwest Territories," and one who wrote under the nom de plume of G. A. M., on "Ranching in the Northwest." A critical report of the pastoral play "As You Like It," which was given on the university lawn, was written by Miss Dora Oliver. The article is extensively illustrated by excellent half-tone cuts.

—Mr. N. McArthur, of Klondike fame, is in Edmonton this week on his way east to visit friends. Mr. McArthur left Bruce county, Ontario, in 1898 and went to British Columbia, engaging in mining. In '98 he went to the Klondike, being among the first there. Three years were spent mining on the headwaters of the Peace river with varying success. Broken down in health, he was forced to leave the Klondike in 1901 just when the big rush was on. However, Mr. McArthur and his partner are known to have secured claims in the Klondike which are now rated at over a million dollars. He does not care to talk much of his mining experiences, but speaks enthusiastically of the wealth of the north country and the great future in store for it. The whole Yukon Territory, a vast extent of country in itself, is exceedingly rich in minerals. The great need of these countries at the present time is railroads. Port Simpson is bound to be a huge shipping point and the first railroad from Edmonton to Port Simpson will open up a country the wealth of which people as yet have no idea of. In the next ten years the people of Canada will experience a development more

rapid and extensive than the phenomenal growth of the Western States.

—Leppage, the prisoner who escaped from the Fort Saskatchewan jail, has been arrested and brought back to the Fort.

—Mrs. G. H. Graydon served tea at the golf links on Saturday. Mrs. J. H. Morris will serve tea next Saturday and Mrs. Kieckpatrick a week from Saturday.

—On Tuesday, the 28th, a requiem mass in honor of Pope Leo will be held in St. Joseph's church at 8 a.m. Several of the choir will be closed from eight to eleven a.m.

—A new building, The Orphanage, has recently been erected on a vacant lot near the Edmonton public school. It will be occupied by the following "orphans": Walter Scott, who came from Australia; Lester Cannon and Frank Russell, of Lacombe, Alta.

—The funeral of the late W. S. Edmonston took place Sunday afternoon at 2:30 o'clock to the Edmonton cemetery. A large number attended the services. A large church at 8 a.m. Several of the choir will be closed from eight to eleven a.m.

—The Old Timers' Association marched first in a body of eighteen, followed by upwards of seventy of the Masonic lodges. The pall bearers were Major Belcher and Messrs. McGeorge, McNicoll, Jellett, Tims, and Richardson.

—On Saturday last the Calgary baseball team journeyed to Red Deer to try conclusions with the home team there. The fact that Red Deer can play as snappy baseball as any town, or city, in the North-West Territories, was amply exemplified by the score which stood 15 to 1 against Calgary. Red Deer club believes in the benefits of continual practice and consequently receives the active support of the business men of their town. Edmonton has plenty of baseball material of the best calibre, but for some reason or other never practices or only in a half-hearted fashion. So long as this tendency prevails small towns like Red Deer will win all cups and trophies offered for competition.

PERSONAL.

Dr. Park, of Uxbridge, Ontario, is visiting in Edmonton.

Dr. P. Roy and family have returned from Paris, France, and other European points.

Mrs. D. C. Groat and daughters are visiting friends in Strathcona and Edmonton this week.

W. F. Bredin, fur trader of Lesser Slave Lake, arrived in Edmonton yesterday from the north.

Miss Belcher returned to Edmonton Saturday night from an extended visit to Winnipeg, Regina and other points.

EDMONTON RIFLE ASSOCIATION.
An well attended practice was held on Wednesday afternoon when some good shooting was done, but the scores have not been handed in to the secretary.

The regular weekly practice took place on Saturday afternoon and some creditable shooting was done at the regular ranges.

Following are some of the top scores: 200-500-600 Yds.

Geo. A. Reid 31 26 39-57
W. E. Heist 32 29 22-83
W. A. Griesbach 32 24 8-01

Mr. Griesbach unfortunately made an error in his sighting for 600 yards and did not catch the correct elevation until his final shot.

The others used verniers and were thus enabled to adjust more closely.

The light was bright at 200 yards but passing clouds made variable light and difficult shooting at the 500 and 600 yard ranges.

Few people realize what a really scientific a rifle shooting has become, that is for the making of high scores, say ninety per cent. of the possible, which we occasionally see credited to some of our best shots.

With bright sunlight a higher elevation is required than with a dull light and the passing of a cloud over the sun, shading the sights, but not the target, makes a great difference in the elevation necessary.

This was noticeable Saturday, in particular, at the 600 yard range. One member, after getting his range correctly and getting a "bull," found his two following shots high, so high in fact that they were only "outers." As the sun had been overcast he lowered his elevation about three degrees, equal to eighteen inches at that range, and again found the "bull," which was a tale to keep up and fear for the balance of the day.

As the secretary had been rounding up the rifles there were sufficient for all and this will be attended to for the future so that any member can depend on being supplied at the range.

MONDAY, JULY 27TH, 1903.

PROVISIONS OF NEW TERRITORIAL HAIL INSURANCE LAW.

The following are the main provisions of the new Territorial hail insurance law:

2. In this ordinance unless the context otherwise requires—

(1) The expression "crop" or "growing-crop" means all the wheat or all the oats or all the barley or all the flax or all the speltz or all of any of them specially referred to and growing on the area defined in the application for insurance.

(2) The expression "minister" means the member of the executive council for the time being administering this ordinance.

3. Unless and until the Lieutenant Governor in Council otherwise orders this ordinance shall be administered by the Territorial treasurer.

4. Subject to the provisions of this ordinance and on behalf of the government of the Territories the minister may and he is hereby empowered to enter into a contract to indemnify against actual loss or injury to growing crops by hail to an amount of \$4 for each and every acre insured.

(2) No contract shall be valid or binding where the application made under section 5 of this ordinance is not made before the crops insured shall have been injuriously affected by hail.

5. Every application for insurance shall be in form A in the schedule hereto and each such application with the receipt of the minister therefor, shall for all the purposes of this ordinance be deemed the contract of insurance.

(3) The provisions of this ordinance shall be deemed to be and shall form a part of every contract of insurance.

6. Each application shall contain the name of the post-office to which all notices under this ordinance shall be mailed.

7. With every application for insurance the applicant shall in addition to an application fee of fifty cents pay to the minister the sum of fifteen cents for every acre to be covered by insurance.

Provided that where the applicant for insurance has only a partial interest in the crop to be insured the rate to be paid per acre shall be that proportion of fifteen cents that the interest of such applicant is in the crop and the insurance to be effected shall be only an insurance of such interest.

(2) No application for insurance shall be accepted from any person who has not fully paid up all amounts due by him under this ordinance.

8. The minister is hereby authorized to make such arrangements for the collection and transmission of application forms and fees as may seem to be advisable and necessary.

Provided that the cost of such collection and transmission shall in no case exceed the amount of the application fee provided for in the next preceding section.

9. Whenever any crop insured under this ordinance is injured by hail the person whose interest in such crop is insured shall forthwith notify the minister by registered letter and shall also notify such person as may have been designated by the minister for that purpose.

(2) Such notification shall be deemed to be sufficient if made by the insured person or by any one else on his behalf.

10. The minister may cause an examination to be made from time to time of any area reported to have been affected by hail.

11. The minister shall appraise the actual loss or damage done by hail to any crop insured under this ordinance.

(3) In case of loss or injury by hail where it is found that through error or mistake the number of acres of crop insured on any river lot or quarter section forms only a part of the total acreage under crop on the river lot or quarter section in which the person insured has any interest, the minister may pay that percentage of the amount of the indemnity payable on account of such loss or injury that the area insured in of the said total area under crop.

(3) For the purpose of adjustment under this ordinance no account shall be taken of the value of the crop and in the event of partial loss the amount of compensation to be paid shall bear the same proportion to the total

amount of insurance that the loss bears to the total amount of crop.

12. If any person is not satisfied with the appraisal of the minister he may have the question of the amount of the loss or damage actually done to his crop by hail submitted to the arbitration of two persons, one to be appointed by himself and one by the minister, by notifying the minister of his dissatisfaction with such appraisal; and such notification shall be a submission under the arbitration ordinance and the provisions of the last mentioned ordinance shall apply thereto.

13. The costs of any award of arbitrators made under this ordinance shall be paid out of the general revenue fund; but should the said award sustain the appraisal made by the minister of the loss or damage done the amount of the indemnity to be paid under the said appraisal shall be reduced by the sum of ten dollars.

(2) In cases where an arbitration is asked for upon an appraisal of no loss or damage having been done the notification required by the next preceding section shall be accompanied by the sum of ten dollars, which sum shall be returned if the minister's appraisal is not sustained by the arbitrators.

15. Where no legislative provision has been made for so doing or where any provision made proves insufficient for the purpose, all liabilities incurred under the authority of this ordinance may be paid out of the general revenue fund by warrant of the Lieutenant Governor directed to the Territorial treasurer.

16. After the coming into force of this ordinance no company, association or society shall carry on the business of insurance against loss or injury to growing crops by hail.

A football match was played after supper between the Poplar Lake Light Brigade and a picked up team from the Sturgeon. Whether it was the inclemency of the weather or the want of practice of the picked up team, the game resulted 6 to 0 in favor of the Light Brigade.

The ladies that provided for the tables might well be congratulated on the bountiful supply of the luxuries of the land that adorned their tables at both noon and night.

The proceeds in all amounted to about one hundred dollars. Had the weather been brighter a great deal more would have been realized.

The C. N. R. surveyors are leaving their tracks in some of our crops at present.

Selection of A Breeding Boar

The choice of the sire is perhaps the most important step in all breeding operations, says the live stock commissioner, Mr. F. W. Hodson. The little remark that "the sire is half the herd" is only part of the truth. He is much more than half of the herd, because, of the parents, he usually exerts the greater influence on the conformation of the offspring. This, of course, is true only when he is the more intensely bred. It is not enough that he be purebred; it is important that he come of a line of ancestry remarkable for uniformity and individual merit. If he be the chance result of a line of indiscriminate breeding, he is not likely to prove an impressive sire. His stock can scarcely fail to be very irregular in type. This point cannot well be over-emphasized for it is just here that the novice in breeding is most apt to make mistakes. It is a too common practice to select and buy breeding stock from among the winners at our exhibitions, taking care only to stipulate that they be eligible for registration. Frequently a phenomena's showy animal is an accident of birth, and even though he be registered in the herd book, is none the less a scrub in point of breeding and can reproduce his good qualities only by accident. It is unfortunately true that a certificate of registration is not always a certificate of merit. The only safe way to select breeding stock is to visit the long-established herd of some breeder of repute, and buy after seeing the sire and dam, and if possible, the grand sire and grand dam of the animal selected. Choose a hog from a large, even litter; fecundity is a hereditary trait, and is essential to profitable hog raising; and the evenness of the litter is a valuable guaranty of the excellence of his breeding, and of his consequent progeny.

The offspring of immature parents should seldom or never be used for breeding purposes. They are apt to be lacking in constitution and vigor; this is especially the case with the offspring of an immature dam. Few things will more quickly lead to the deterioration of a herd in size, vigor and fecundity, than the continued use of immature females.

In conformation the boar must not only be of the approved bacon type, but must have the distinct and unmistakable masculinity of appearance which is easily recognized, but not easily described. Masculinity does not necessarily imply undue coarseness; it consists rather in a bold, fearless, "come on, who's afraid," expression of countenance than in any peculiarity of conformation. A certain amount of coarseness is unavoidable, especially in an aged boar, but he must not have such excessive roughness as would indicate poor feeding qualities, nor is it desirable that he be of extreme size. Mr. Sanders Spencer, the noted English breeder, says on this point, "Although some persons make mere size a great point when choosing a boar, our experience leads us to consider this to be a mistake; a very large boar seldom lasts long; he becomes too heavy for the sows; he probably proves to be slow and his litters few and small in numbers. A very large and heavy boar is also more likely to suffer from weakness of the spine or hind-quarters, and he is frequently weak in his joints and crooked-legged. These latter failings should be specially avoided, as they are hereditary and will frequently crop up for several generations. Weakness of ankle and roundness of bone—two qualities which should be avoided in a sire—are often allied with great size. A medium sized, compact boar, heavy in the hind-quarters and light in the fore-quarters, will frequently continue fruitful for at least twice as long as will the heavy-shouldered and coarse-boned boar. Nearly the whole of the most successful pigs have been on a small rather than a large scale."
